To Whom it May Concern,

I would like to express my appreciation to Rochelle Spiegler of Animal Behaviour and Training Associates for teaching the excellent dog obedience class that my Golden Retriever, Sarah, and I attended. We learned safe, humane methods of molding her behavior into that of a valued member of our family. We not only learned basic obedience commands, but also how to correct problem behaviors like digging, jumping, and errant potty habits. She took the time with each of us to discuss our individual needs, and made it interesting to the rest of the class also. One of my biggest concerns with Sarah was her shyness and reluctance to meet other dogs and people. Rochelle talked with me about my particular problem, giving me very good tips which have worked. She also gave us the reasoning behind each strategy, giving us a greater insight into the purpose of the method and the psychology and sociology of the dog. I would recommend her class highly.

Thank You,

  
Claire Lacour
