Dear Dr. Ericson, Wordhoff Animal Hospital

We took our eleven month old Siberian Husky named Jasmine to Animal Behavior and Training Associates obedience training. The course was taught by Rochelle Spiegel. We brought Jasmine to the class because she was hard to handle when we got her from the animal shelter. Our objective was to learn how to train her in good behaviors and curb the undesirable behaviors.

There has been a tremendous change in Jasmine as a result of these classes. We still have a lot of work to do with her but we know we are doing the right things.

Mrs. Spiegel was a wonderful instructor. She was patient and knew how to handle every kind of dog and every kind of owner. She gets personally involved with every dog. It was impressive that she knew every dog's name, and called them by name.

We would highly recommend this class to anyone who wants to be a better dog owner and have a better dog.

Sincerely,

Lee and George Lubovis

P.S. My son, Scott took the course with Jasmine. Rochelle was especially caring and patient with him. He learned a lot in this class.
